Over the past winter, many civic address signs have become illegible since the vinyl numbering and blue backing has been removed from the sign. Your sign has been identified as one that has been affected.

The County has investigated this problem and determined that the damage is the result of bird (Blue Jay) activity. They have been filmed in the act of tearing the vinyl off the signs. No explanation for this activity has been offered by any bird authority that has been consulted.

The signs damaged by the bird activity will be replaced by the County at no cost to the property owner, for one time only. In the future, a charge of \$30.00 will apply for any damaged sign. In order to guard against a repeat of this problem, a Plexiglas covering, molded and drilled to accommodate the civic address sign, will be made available at a cost of \$7.00. The property owner may install the covering or it may be installed by the County installer if notice is provided prior to the installation of the replacement sign.

If you have any questions, please feel free to contact us as indicated below.
